

JOÃO GUILHERME DE OLIVEIRA ALMEIDA

ABOUT ME

I'm a 22-year-old Full-stack web and mobile developer based in Manaus, Brazil, and currently focused in Front-end development in general. Currently working with React + Next and Node + Express but with knowledge in several other technologies as well.

I have a Technical Degree in Informatics with emphasis on Software Engineering and am currently at my 9th semester of my Software Engineering Bachelor's Degree course which I should be finishing by Q2 2023.

MAIN SKILLS

EDUCATION

-  **Matias Machline Foundation** - Technical Degree in Mechatronics
January 2015, December 2015
-  **Federal Institute of Amazonas** - Technical Degree in Informatics
February 2016, December 2018
-  **GRACOM** - Certificate Course in Open CG
May 2016, July 2017
-  **Federal University of Amazonas** - Bachelor's Degree in Software Engineering
January 2019, June 2023 (Estimated)
-  **State University of Amazonas** - Certificate Course in Embedded Android Development
January 2021, May 2021

WORK EXPERIENCE

-  **PRODAM-AM** - Software Development Intern
June 2018, December 2018
 - While working in this company, my main role was to maintain legacy systems written in Java, CakePHP and Laravel, doing tweaks and implementing new features on demand.I also developed tools to automate processes such as mail sending and data mining on excel sheets, most of them which I wrote in Java.
-  **CREA-AM** - Full Stack Developer
May 2019, June 2021
 - As a intern, I started working both as an I.T support technician and a developer. The I.T support role consisted mostly of maintenance and help desk support, while my role as a developer was to create new applications on demand or to automate existing tasks. Most of the applications were written in React and PHP, although I did use Java, Python and even web scraping frameworks, such as Scrapy.
-  **Capgemini** - Full stack Developer
June 2021, April 2022
 - My main project while working in this company was Banco do Brasil's investments page, where I actuated as a Front-end Developer and worked mostly with React, Next, CI/CD operations and UI/UX designer in some tasks too.
-  **Ioasys** - Front-end Developer
April 2022, February 2023
 - As a Front-end Developer, my main projects were CVC's bus ticket platforms Rodofácil and Rodoviário Exclusivo, where I worked mostly with TypeScript, React and Jest.
